Selection
Several factors such as age, weight, frame size, and breed type play a role in selecting a goat project. Ask your Country Extension Agent or Agricultural Science Teacher which project may be best for you.

Facility Preparation
- Electricity
- Ventilation
- Flooring
- Scales
- Water
- Exercise Area/Track
- Drainage
- Waste Disposal
- Fencing
- Feeders

Average Cost of Goat Project
- Purchase Price: $822.46
- Feed Cost: $262.98
- Supplies: $179.87
- Vet Cost: $88.87
- Fees: $94.64
- Miscellaneous: $105.66
- Total Cost: $1,554.39 (per 1 head)

Project Length
- Market Goats: Approximately 6-8 Months
- Wether Does: Up to 18 Months

Health Care
A preventive health program should include vaccinations and treatments for multiple infectious and non-infectious diseases and metabolic disorders that are commonly associated with nutritional deficiencies. Administered dewormer orally once a month or as directed by a veterinarian.

Feeding
Young, fast growing animals need rations that contain 16-18 percent protein. Older animals can be fattened on rations containing 11-12 percent protein. Make sure the feed has adequate energy for nutrient utilization.

What should you do everyday with your project?
Walk, Practice, Exercise! The more you handle your project the easier it becomes to handle.

Fun Fact: Goats have incredible agility and balance!
